Legal basis: Other regulations

Content:

In view of the requirement of Article 62.8 of the Act of 29 July 2005 on Public Offering [...], considering that the shares of SERINUS ENERGY plc ("Company") are listed on AIM in the UK, and with reference to WSE current report No. 23/2022, the Management of the Company announces that it has provided outside the Republic of Poland information that the drilling of the Canar-1 exploration well in Romania commenced today (04 August 2022).

The Canar-1 well will be drilled to a depth of 1,600 metres, targeting three prospective hydrocarbon zones. The Canar prospect is located on the northern flank of the Carei Basin, approximately four kilometres to the west of the Company's Moftinu Gas Plant. The Canar-1 exploration well is seeking to discover further hydrocarbons on the migration path from the Carei Basin source kitchen. With success, production from this well will be connected to the Moftinu Gas Plant, utilizing existing plant capacity.
